PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Vypolzov Maneuver Area Kiyev North-Northeast is located 63 kilometers (km) north-east of Kiyev and 39 km south-southwest of Chernigov Training Area Kiyev North-Northeast between the Dnepr River and the Densa River (Figure 1). Administration, billeting, and other support for the maneuver area is provided by Vypolzov Army Barracks which is located on the southern boundary of the maneuver area.

The maneuver area covers approximately 52,000 acres and contains a possible tent camp, 5 tank/assault-gun ranges and a probable tank/assault-gun range under construction, 5 driver-training areas, an infantry field training area, a range probably for vehicle-mounted automatic weapons, an area for artillery training, a secured storage area, 2 unidentified areas, and 2 prob-

able impact areas (Figure 2).

The area is covered by KEYHOLE missions from [REDACTED]. Comparative analysis reveals a light to medium level of activity. No winter training was observed. Significant changes include the addition of 5 moving-target runs to range N1 and activation of a tracked-vehicle driver-training course between [REDACTED] the activation of a range probably for vehicle-mounted automatic weapons, the addition of an impact area to range N1 between [REDACTED] and the addition of 3 rows of stationary targets to range N1 between [REDACTED]. A probable tank/assault-gun range under construction was observed in [REDACTED] and a possible tent camp was activated between [REDACTED].

DESCRIPTION OF INSTALLATION

Railroad Service

The maneuver area is not directly rail served; however, a rail-served storage installation 41 km to the north possibly supports this area.

Road Service

A secondary probably all-weather road connects this area with the Chernigov-Kiyev highway.

Administrative and Troop Housing Areas

Area D is a possible tent camp activated between [REDACTED]

Vypolzov Army Barracks serves as support for the maneuver area.

General Storage Area

Area E contains 19 secured storage buildings and 2 support buildings.

Driver-Training Areas

Area M1 is a wheeled-vehicle driver-training area containing 2 figure-8 driver-training courses activated between [REDACTED] and [REDACTED]

Area M2 is a generally oval-shaped, tracked-vehicle driver-training course.

Area M3 is an irregular-shaped, tracked-vehicle driver-training course activated between [REDACTED] and [REDACTED]

Area M4 is a wheeled-vehicle driver-training area containing 1 elliptical course and

TCS-80127/65

25X1D several parallel ground scars. On [REDACTED] coverage the parallel ground scars appeared to be lanes.

Area M5 is a wheeled/tracked-vehicle driver-training course composed of 2 elliptical courses.

Tank/Assault-Gun Firing Ranges

25X1D Area N1 is a 7,800-foot range with nine
25X1D 2,900-foot firing lanes, 5 moving-target runs,
25X1D 3 rows of stationary targets, and an impact area.
25X1D The moving-target runs were constructed between [REDACTED] the impact
25X1D area activated between [REDACTED]
25X1D one row of stationary targets activated between [REDACTED] and 2 additional
25X1D rows activated by [REDACTED]

25X1D Area N2 is a 4,550-foot firing range with
25X1D three 2,900-foot firing lanes and 2 moving-target
25X1D runs. The lanes were visible in [REDACTED] and
25X1D the runs were present in [REDACTED]

25X1D Area N3 is a 5,550-foot range with six
25X1D 2,850-foot firing lanes, 2 moving-target runs,
25X1D and stationary targets. The lanes and runs
25X1D were present in [REDACTED] The stationary
25X1D targets were activated between [REDACTED]

25X1D Area N4 is a 3,200-foot range with six
25X1D 1,950-foot firing lanes and 2 moving-target runs.
25X1D The lanes and runs were present in [REDACTED]

25X1D Area N5 is a 2,750-foot range with three
25X1D 1,650-foot firing lanes and 1 moving-target run.
25X1D The lanes and runs were present in [REDACTED]

Area N6 is a 4,100-foot probable tank/assault-gun range. A static firing line and 2 probable moving-target runs were under con-

struction in [REDACTED]

Associated with the tank/assault-gun ranges are 11 range control/support buildings constructed between [REDACTED] [REDACTED] is the first coverage of sufficient quality to determine the presence of the 2 probable impact areas north of the ranges.

Artillery Emplacements (Batteries)

Area Q contains 3 field artillery batteries with 4 firing positions each and 1 AAA battery with 6 firing positions. The area appears to be used primarily for training in construction of positions and emplacement of guns. The 3 field artillery and 1 AAA batteries are the only ones discernible in the area.

Infantry Field Training Area

Area R is an infantry field training area that was active in [REDACTED]

Special Training Facility

Area S is a probable vehicle-mounted automatic-weapons range constructed between [REDACTED] [REDACTED] The facility includes 2 closed-circuit loops and 2 moving-target runs. The distance from the rear loop to the moving-target run is 960 feet.

Unidentified Facilities or Tracking Activity

Area T1 is an unidentified area consisting of 4 parallel ground scars. It was activated prior to [REDACTED]

Area T2 is an unidentified area consisting of random ground scars, first observed on [REDACTED] coverage.
